The decisions we make as a Leader are the essence of what inspires or dis-empowers others. Our ability to Lead Intelligently in the face of frustration and unrealized expectation creates an environment where highly effective people who enjoy their work. This ability to consciously decide to 'Act' intelligently and cultivate a Leadership Enriched environment instead of 'React' to events and circumstances is 'Leadership Intelligence'. Decision-making is a cognitive process where the outcome is a choice between alternatives. We often have different preferences as to our preferred, approach, varying between thinking and feeling.

Based on Directive Communication Psychology and associated case studies, **this workshop provides an awareness of ourselves and how our reactions as Leaders affect our environment.** It provides a psychological platform to make more intelligent decisions to affect our environment for our desired results. Leadership Intelligence helps you make the right decisions!

Aligning with Leadership Intelligence, you will also discover the world's most empowering Body Language skills including 101 interpretations and thought patterns just by looking at people. In this program, **you will discover how to know how people feel or what they think just by looking at them!**

To Ensure You Achieve these Trainer Objectives
